Ideas of national unity in early-nineteenth-century Europe were closelyallied to the ideology of liberalism. The term 'liberalism' derivesfrom the Latin root liber, meaning free. For the new middle classesliberalism stood for freedom for the individual and equality of allbefore the law. Politically, it emphasised the concept of governmentby consent. Since the French Revolution, liberalism had stood forthe end of autocracy and clerical privileges, a constitution andrepresentative government through parliament. Nineteenth-centuryliberals also stressed the inviolability of private property.
